

NETmundial Initiative

Webinar Invitation on the Official Launch of the NETmundial Initiative | 6 November at 15:00 UTC

You are cordially invited to participate in a webinar session marking the official launch of the NETmundial Initiative.

The Initiative's way forward has been shaped by the feedback collected from the various community dialogues since the NETmundial-inspired meeting hosted by the World Economic Forum in Geneva on 28 August 2014.

The Brazilian Internet Steering Committee ([CGI.br](http://cgl.br)), the World Economic Forum ([WEF](http://www.weforum.org)), and the Internet Corporation for Assigned Names and Numbers ([ICANN](http://icann.org)), will discuss these developments, in addition to the role of the multistakeholder NETmundial Initiative in energizing bottom-up, collaborative Internet governance solutions in a distributed ecosystem.

Speakers: [Virgilio Augusto Fernandes Almeida](http://cgl.br) (CGI.br), [Richard Samans](http://www.weforum.org) (WEF) and [Fadi Chehadé](http://icann.org) (ICANN).
