

**Join us for an IISD book launch**

**14 November 2007 – 17:00 to 18:00**  
**IGF meeting room – Pardo II**  
**Rio de Janeiro, Brazil**

◆  
**Wine and refreshments**

◆  
**Keynote speakers from InfoDev,  
IDRC and IISD**

◆  
**Sharing of observations and an  
opportunity for open discussion**

This new book contemplates whether an improved dialogue between the Internet governance and sustainable development communities could contribute to building a better world. Can they work together on mitigating degradation of natural and human environments; helping to avoid the economic marginalization of developing countries facing digital exclusion from global markets; or helping to maintain and promote cultural diversity and traditional knowledge?

Please see  
<http://www.iisd.org/infosoc/gov/igsd/>  
for more information.

IISD gratefully acknowledges the generous support of Canada's International Development Research Centre (IDRC) for our ongoing work in this area.

# Internet Governance and Sustainable Development

**Towards a Common  
Agenda**
