**European Yearbook on
 Human Rights 2012**

In terms of both human rights and democracy, 2011 was a revolutionary year. The Arab Spring has put into sharp focus some long held assumptions of the international community. But this was not the only revolution in human rights thinking in 2011.

Defining and discussing key developments in human rights in Europe and in the world, the fourth edition of the European Yearbook on Human Rights brings together 28 contributions by renowned human rights experts that provide a much needed overview and sought-after analysis.

Edited jointly by representatives of four major European human rights research, teaching and training institutions, the Yearbook 2012 contains extensive sections on developments

in the field of the three main organizations charged with securing human rights in Europe: EU, Council of Europe and

OSCE. A further chapter contains contributions on the role of civil society in human rights protection and on cross-cutting topics.

Holistic in its approach, but detailed in its analyses, the European Yearbook on Human Rights 2012 provides its readers with a sweeping overview and comprehensive analysis of the events and issues that have shaped the human rights debate in Europe in 2011 and continue to shape it today.

The impressive array of authors – academics and diplomats, practitioners and human rights experts – makes the book essential reading for anyone interested in human rights in Europe and beyond.
