

## From Deadlock to Dialogue: Enhanced Cooperation in Internet Governance, Baku Convention Center (Room 3) 5/11/2012 10.30 – 17.30

The objective of this pre-event is to enable frank and constructive dialogue on enhanced cooperation in internet governance. It will, build on work to date, including the report of the UN Secretary-General, the UN Commission on Science and Technology for Development (CSTD) consultation on Enhanced Cooperation held on 18 May 2012, and discussions that took place during the 15th session of the CSTD in the week of 21 May 2012 in Geneva. The event is open to all participants.

**Mapping enhanced cooperation:** an exploration of internet governance processes and spaces, which maps gaps, progress, and good and bad practice from various perspectives with regard to 'enhanced cooperation'.

**Priorities:** which governance institutions and areas of governance are various actors most concerned about and what are the changes they want and the reasons for wanting these changes.

**Principles:** what are the core principles that should underpin global internet governance? How are these defined?

**Next steps:** what steps and processes can take this discussion forward productively?

**Case studies or scenarios:** examination of how specific IG processes or institutions operate from the perspective of stakeholder inclusion/exclusion and/or scenarios of how IG processes or institutions can change in line with the WSIS principles and the goals of the Tunis Agenda. Also, case studies/ scenarios of what kind of international public policy issues may require resolution and may not be adequately addressed at present.

*Organized by the APC, the ISOC and the ICC-BASIS with the support of the governments of Brazil, Egypt, and Kenya. For more information and to register visit <http://ec-event-igf2012.apc.org/> or email igf-pre-event [at] ists.apc.org.*
